## STEIGER® TBR 260

Due to the new development of the **Hi-light Performance** series, the TBR 260 has gained incredible performance capabilities, compared to the previous top model in this category. The STEIGER® TBR 260 features a whopping 26-m working height and **17-m reach capacity**. This easily exceeds the abilities of the previous model – the STEIGER® TBR 250.

For us, changing market conditions are always the motivating factors for performance enhancements.

Models in the TBR series – **with their improved performance capabilities – exceed current customer expectations**. The new generation of STEIGER® models in the 3.5-t category feature increased operating performance and maximized stability and versatility at the job site. With these exciting new models in their fleet, equipment rental companies can look forward to a higher utilization rate.

The 1.6 m of additional working height and 0.7 m of increased reach capacity can be attributed to our brilliant design concept. The basket-load capacity has also increased by a full 20 kg – from 230 kg to 250 kg.

High flexibility  
and easy  
handling!

### VERSATILITY FOR EVERYONE

The new STEIGER® generation is attractive for diverse groups. It is a real novelty on the market promising you as customer maximum utilization rate and comfort for each field of application. All models can be driven with a class B driving license.

	26 m		1,40 x 0,70 m
	17 m		250 kg
	2 x 225°		3,0 m
	185°		7,9 m
	5°		3.500 kg
