## STEIGER® TB 300

The STEIGER® TB 300 is an **entirely new development**. Featuring a **sensational 30-m working height** and 17.1-m reach, the TB 300 on a 3.5-t chassis provides unprecedented performance capabilities. This innovation has an operating capacity that previously had only been available on 7.5-t truck-mounted work platforms. Class B driver's license holders benefit tremendously. The TB 300 will not only complement the previous 30-m, 7.5-t category but possibly replace older, heavier truck-mounted platforms on the market today. With 1.5 meters of additional working height available on 3.5-t

vehicles, equipment rental companies can look forward to **increased revenues, profits, and a higher ROI (return on investment)**. This 30-m work platform also scores with its short vehicle length and low height, which greatly enhances agility.

The STEIGER® TB 300 is the undisputed flagship of the **Hi-light Performance** series. Hi-light stands for **RUTHMANN's** ingenious design and steelfabrication techniques.

-  Convinces by performance and stability
-  Short overall vehicle length for higher manoeuvrability
-  Complements 30 m class on 7.5 t
-  **Mounted on the new Mercedes Benz Sprinter. Easy handling.**

**Protrudes from  
your fleet!**

### VERSATILITY FOR EVERYONE

The new STEIGER® generation is attractive for diverse groups. It is a real novelty on the market promising you as customer maximum utilization rate and comfort for each field of application. All models can be driven with a class B driving license.
